

# Grasshoppers Rugby Football Club

PDL357

Design and construction of a new BREEAM Excellent, 1,400m<sup>2</sup> Rugby Football Club. As well as a new rugby clubhouse, the venue has natural and artificial rugby pitches, three netball courts, a shop, car parking, gymnasium, function suite, members' lounge and bar, along with a separate apartment for the facilities manager.

The multi-million-pound, state-of-the-art facility provides young people in the borough with better access to rugby, football and netball – further nurturing the rugby club's links with local schools and grassroots provisions in the area.

George Orishaguna, director at Grasshoppers RFC said: *"I truly believe Pick Everard and Dawnus have provided us with a facility unmatched for any club at our level in the whole country. This will enable us to improve rugby and netball for all ages while maintaining our fantastic Grasshopper ethos, with members, schools and the community very much at the heart."*

**Client:** London Borough of Hounslow

**Value:** £10,800,000

**Engineer:** Pick Everard

**Duration:** 57 weeks
